

OFFICE OF THE CHIEF INFORMATION OFFICER UNIVERSITY OF CALIFORNIA, SANTA BARBARA

December 20, 2016

To: Campus Community
Fr: Matthew Hall, Chief Information Officer
RE: ETS Annual Report 2015-2016

It gives me great pleasure to share the Enterprise Technology Services (ETS) Annual Report for FY 2015-2016 at <http://cio.ucsb.edu/annual.reports/>. Over the past year, the team's efforts focused on making our campus more connected, more collaborative, and more secure.

During the 2015-2016 fiscal year, ETS critical infrastructure helped visitors and UCSB community members connect to wireless networks securely while traveling to other universities with eduroam, improved faculty and staff's ability to collaborate and host meetings remotely with Connect and Zoom, and increased the campus' ability to identify and react to cyber security threats with new Defense in Depth and antivirus solutions. Core critical business systems including our Campus Financial System and our Electronic Timekeeping capabilities continue to facilitate the day to day operations of our campus.

ETS takes great pride in contributing to UCSB's mission of research, teaching, and community service. We look forward to serving the campus in the new year.

Sincerely,
Matthew Hall
Associate Vice Chancellor and Chief Information Officer
Cyber-Risk Responsible Executive
